

1x1 inch button template

If you are having us make your buttons, just send us a 300 PPI, print quality square with a good size margin. We can take care of the rest!

If you are making your own buttons, your 1x1 inch square page layout should be in columns like this, so it will fit through the graphic punch.

300 PPI

Cut Line - 1.625x1.625 inches
 Face Line - 1x1 inch
 Back Text Line - 1.06x1.06

“Bottom Text” and “Top Text” appears on the back of the button and should be placed as shown, 0.06 inches from the Face.
